

B. Amendment to the Claims

Please amend claim 12 as follows.

1-12. (Cancelled)

12. (Currently Amended) A luminescence device comprising a pair of electrodes, a luminescence layer disposed between the electrodes and an organic layer, which is disposed between the electrodes and is different from the luminescent layer, the luminescent layer comprising a metal coordination compound represented by formula ~~any one of the following formulas (1) to (4):~~

wherein:

(i) ~~the compound of formula (4) is compounds of the formulas (1) and (2)~~
~~are independently substituted with at least one C₁-C₂₀ alkyl group, C₁-C₂₀ alkoxy group or~~
~~trimethylsilyl group, which said alkyl, alkoxy and trimethylsilyl groups are optionally~~
~~substituted with a fluorine;~~

~~(ii) compounds of the formulas (3) and (4) are optionally and independently~~
~~substituted with at least one ~~least~~ C₁-C₂₀ alkyl group, C₁-C₂₀ alkoxy group or a~~

trimethylsilyl group, which said alkyl, alkoxy and trimethylsilyl groups are optionally substituted with a fluorine; and

(ii) [(iii)] one -CH= in one or both pyridine rings in the compound of formula (4) formulas (1)-(4) is optionally replaced with -N= .
